SANFORD'S RADICAL

Sanford's liadical Cure for Carterth is a safe, certain, and permanent cure for catarrh of every form, and is the most perfect remedy ever devised. It is purely a regetable distillation, and is applied locality by menflistion, and constitutionally by internal administration. Locally applied, relief is instantaneous. It soothes, beals, and cleanses the misal passages of every feeling of heaviness, obstruction, dailness ordizathess. Constitutionally administered if removates the blood, purifies it of the add poison with which it is always charged in catarrh, stimulates the stomach, liver and kidneys, perfects digestion, makes new blood, and permits the formation of sound, healthy rissue, and finally obtains complete control over the disease. The remarkable curative powers, when all other remedies utterly fail, of sandford's Radical Care, are attested by thousands who gratefully recommend it to fellowsufferers. No statement is made regarding it that cannot be substantiated by the most respectable and reliable references. It is a great and good medicine, and worthy all confidence. Each package contains a testise on catarrh and Dr. Sanford's Improved Inhailing Tube, and full directions for its use in all cases. Price \$1.

An Enthusiastic Friend of Sanford's Radical Cure.

McHatton, Ghant & Bhown's Fire and Marine Insurance Agency,
225 Pine Street, St. Louis, Mo., Feb. 7, 1877 A. A. Mellien, Washington Av., City.—Dear McL A. A. Meillian Washington Av., City.—Dear Melier: I have for some years been troubled with caterih, shid for the past two years have suffered serlowely with it. Noticing your advertisement of Santord's Remedy (Radical Cure), I decided to try it. I have used only two bottles, and as a result I feel so much releved that I persume on our personal relations and write this to you and ask that you take some measures to get it more prominently before the public, that others may have such relief as have. I have recommended it to quite a number of my friends, all of whom have expressed to me their bigh is timate of its value and good effects with them.

them.
I really think it particularly adapted to wants of St. Louis people, and they all ought to know of it, and those who need it should try it. I will risk the assertion that 1009 I oz. visis in a sample; to be given sway will sell as many bottles.
Try some plan. Let the people have it; they need it, I believe I could sell 500 bottles myself—of course you could largely increase this number Why not try it? Yours truly. WM. BOWEN.

LAME BACK

RHEUMATISM CUILED BY

MESSES WEEKS & POTTER; GentlemenOne year ago was solzed with a severe attack of
the dimatism in my right hip, to which I was subject. I tried the various liminents and rheumatic
cures, but without least benefit, when my son, a
draggist, suggested one of your Collius Voitaic
Plastors. The effect was almost magical, for, to my
grateful surple. I was almost immediately well
again, and was able to werk atom my farm as usual,
whereas, before the application of the plaster. I
could do nothing, and every step gave me pain. A
few weeks since one year from the first attack, the
disease returned, but I am happy to say the second
proved as effectious as the first, and I am now well.
My wife wishes me to add that one plaster has
cured her of a very lame back. We think there is
nothing in the world of remedies that can compare
with the Collins Voltate Plasters for rhebmatism
and lame back, and cheerfully recommend them to and lame back, and cheerfully recommend them to the suffering. Yours very respectfully, Onland, Ma., June 6, 1878, ROBERT COMTON.

NOT A QUACK NOSTRUM.

GENTLEWEN-I hereby certify that for several years past I have used the Voltaic Plasters in my practice, and have never known them to fail in affording speedy relief in those cases for which they are recommended. They are not a quack nostrumbut a remedial agent of great value. Very truly yours.

W. C. COLLINS, M. B. BUCKSTORT, Me., May 27, 1874.

REPORTS FROM THE FEVER-SRICK-EN CITIES NOT ENCOURAGING.

INCREASE IN THE NUMBER OF CASES AT MEMPHIS-THE DISEASE GROWING MORE MALIGNANT AT NEW ORLEANS-VICKSBURG THE GREATEST SUFFERER IN PROPORTION TO POPULATION.

[Special to the Republican.] MEMPHIS, Tenn., Aug. 22.-We are in the midst of very little life and a great deal of death, to-day, in this deserted, plaguestricken city. The increase of the number of new cases in the past twenty-four hours, where there is nothing in the weather to justify the expectation of such increase, has the tendency to intensify anxiety and shake confidence in the ability of our medical people to cope with the fear-ful malady. The increase of the disease yesterday has caused hundreds to leave the city to-day who had made up their minds to remain and assist in alleviating the suffer-Collin's Voltaic Plasters. ing, and the reports of continued increase to-day will drive hundreds more away. The doctors say let them go; it is the quickest and surest way to subdue the disease by depopulating the city so that it may have

nothing to feed on. In the midst of this gloomy aspect of affairs there is consolation in the fact that the physicians have control of the disease, evinced in the number of patients convalescing, a number of whom have already received their discharge. We have just neard from one of the citziens of Camp Joe Williams that the two little orphan girls adopted by the Bluff City Grays at that camp have been stricken with the fever and were carefully provided for by Dr. Otey. physician in charge of that camp. The circumstances surrounding these little girls have awakened much sympathy, and all feel a deep interest in their fate.

On yesterday vistor Stoddard, of the Howards, went to the cottage of Mr. Henry Mc-Call, on the corner of Pontage and Walnut streets. There he witnessed a scene that melted him to tears. The father and mother were lying in a dying condition on the same bed, standing around which was their six little children, not old enough to realize the prices that were paid and the interest that sad condition of their parents. There was no one present, not even a nurse. A nurse was immediately dispatched to the house over \$100,000,000 of profit before they even by the Howards, but it will be too late got the principal. Here it is: to do more than care for the little ones so incident occurred to-day at the Citizens' Relief committee rooms. Three little children, two of one family and one of another, whose parents had died of the fever, were brought in to be provided for. Mr. C. W. Goyer, learning the fact, had them sent to the Protestant and Odd Fellows' orphan asylum. Many just such incidents are transpiring daily and many more may be expected before our trouble is over.

Mayor Flippin has issued a call upon property-owners to make advances on their to \$11,187,188, which added to its principal. taxes for 1878 so that he can pay the city employes enough to-keep them and their families from want. In response to this call about six thousand dollars has been

collected W. B. McNulty, second clerk of the low Little Rock, arrived on the City of Alton to-day having come down the Arkanthe Martin Speed, another Arkansas packet, also in quarantine 75 miles below Pine Biuff, not being allowed to go higher up the river. He reports all well on both

The board of health reports to-day 51 new cases and 10 deaths. The dead of to-day are as follows: E. Shilder, aged 25 years.

W. H. Hodges, 35.

Jno. Madison, 40.

colored.

Sam Davis, 25. Mrs. Rachel Cole, 34. Henry Schultz, 35. Thomas S. Clay, 33. Antony Schwab, 48. Doc. Berger, colored, 49. Philip Burton, colored, no age given. There are 11 deaths reported from other causes, of which six were white and five

Thos. R. Cloyd was ticket agent at the dept of the Memphis and Charleston rail-

day and several are among the new cases reported.

A special telegram to the Appeal from Helena announces the death there to-day of Gertie Weathers, a Memphis refugee, of yellow fever. The event caused a stampede of the citizens of that place and a more rigid enforcement of quarantine. The special says the town is picketed to prevent any one from Memphis or elsewhere from entering it.

AT VICKSBURG.

Vicksburg, August 25 .- Yellow fever is attacking the negroes. A number have been stricken down to-day. It is estimated there are fully fifty new cases to-day and ten deaths up to 3 p. m. There is great need of physicians. Drs. Robbins and Balfour are improving, and in fair a way of recovery. Some estimates there are 600 cases of yellow fever here, but the general estimate is a little over 300. Sheriff Flanagan, of Warren county, publishes a call on state and county officers throughout the country for financial aid to the sufferers here.

The following explain themselves: Vicksburg, August 22, '78.
Samuel Choppin, President Board of Heaith.
The epidemic is very violent and malignant, much more than in New Orleans.
There is great want of nurses and physicians. cians. Five of the regular corps of M. D's are absent from their post. There were 25 deaths yesterday from yellow fever. Can you help us?

ED. G. Banks, M. D.

NEW ORLEANS, August 22.

Dr. E. G. Banks, Vicksburg. Sorry to hear of your distress. An epidemic is the battle-field of the true physician. Will see the Howard association to

Sam. Choppin, M. D., President Board of Health. The board also received a dispatch from the mayor of Vicksburg, asking that four physicians be sent there. The dispatch was referred to the Howard association.

New cases, 88; deaths, 58. Up to 7 p.m., 60 new cases and ten deaths had been reported to the board of health since noon. These will be included in to-morrow's report. Funerals continue to later hours than usual. One was reported this evening after 7 o'clock, lanterns being used for lights.

A dispatch from Morgan City reports one case of yellow fever there.

Jackson, Miss., Aug. 22.—Not twenty white families are left. All the state officials or those having business with any of the departments can communicate as usual, although state business is almost totally suspended in consequence of the blockade, Favorable news comes from Canton. A few cases have occurred out in the country, FIRST DEATH AT LOUISVILLE.

Kalin, provision dealers, have instructed the authorities of Memphis and New Orleans to draw on them for \$100 each for the benefit of yellow fever sufferers.

HISTORY OF A CRIME.

DEDICATED TO THE SWINDLED PEOPLE OF

THE UNITED STATES. The Senator from Kentucky (Mr. James B. Beck) gives a succinct history of all the bonds that were sold each year and the was given, and from which it appears that the bondholders up to 1869 had received

In 1862 the government sold 6 per cent soon to become orphans. Another affecting 5-20 bonds to the amount of \$60,982,450, and received for them greenbacks at their face, dollar for dollar. The demand now is that these bonds shall be paid in gold at their face, and yet, owing to the depreciation of greenbacks at the time of their purchase, only \$44,030,649 in gold was paid for them. This makes a clear speculation of \$16,951,801 in favor of the bondholder in this first transaction. On this clear speculation the bondholders have received interest for eleven years, amounting makes the sum of \$28,138,989 already received in that single transaction, for which not one dollar was ever paid.

In 1863 the government sold of the same kind of bonds \$160,987,550, for which it received an equal amount in greenbacks. Arkansas river packet Maumelle, which was A standard authority placed the average quarantined in the Arkansas river six miles | price of gold in that year at \$1.58 in currency. It will thus be seen that these bonds cost their purchasers but \$101,890, sas river 209 miles in a skiff. He reports 854 in gold, leaving a profit of \$59,096,696, without including the interest. For ten years, however, the government has paid interest on this naked profit, this principal, without any consideration. The interest thus paid amounts to \$35,458,017, which, added to this fictitious principal, makes \$94,555,713, now in the pockets of the bondholders on that year's operations, for which they never paid anything.

In 1864 the government sold these bonds, amounting on their face to \$381,292,250. Again the government received only depreciated paper for these bond obligations, and at that time our currency was enormously depreciated, if tried by the gold standard. The price of gold during that year was an average of 201 in currency. The sale of these bonds, therefore, which are now assumed to be gold bonds, only realized to the government \$189,697,686 in gold, less than one-half of their face value. There was left to the capitalist who speculated in them as purchasers the immense profit of \$191,594, payment, due bill or otherwise without 614. This was the amount of the broker's delay. I wish to have all business settled It will be seen that two colored men are shave, and on it he has drawn interest from before the first of September. included in the deaths from yellow fever to- the people ten years, amounting at this

time to \$114, 956,768. Add this principal, which stands as pure speculation, and we find that the bondholders have made as clear gain, as something for nothing, the sum of \$306,551,382 on the one year's

transaction of 1864. In 1865 the government sold bonds to the amount of \$279,746,150, on which it suffered a discount of \$71,532,060 at the hands of capitalists. The interest already paid by the people on this discount reaches \$38,627,307, making this year's operations realize for the bondholders \$110,159,367, for which not one cent was ever paid.

In 1866 the government sold \$124,914,400 of its bonds for which it received depreciated paper amounting to \$88,591,773 in gold, according to the then price of gold. The difference between the face of these bonds and the amount they realized to the government was \$39,332,627. Eight years' interest received on this shave amounts to \$17,434,556. Adding this interest and its principal together, and we find that the bondholders have received \$53,757,-183 out of this year's sale of bonds for which not one dollar ever left their coffers or reached the United States treasury.

In 1867 the government sold of its bonds the immense sum of \$421,469,550. The purchasers paid for them \$302,215,503, leaving a clear profit to them on the operation of \$118,254,047. Taking the interest on this profit for est on this profit for seven years amounting to \$49,661,694, already paid, and the speculators have in their pockets, if these bonds are to be paid in gold, the sum of \$167,915,741 on this year's brokerage, and for which they never gave a farthing in

consideration. In 1868 the government sold its bonds to the still further amount of \$425,444,800. Their purchasers paid \$312,826,323 for them, clearing by that annual speculation the sum of \$112,617,477. Add six years' interest on this bonus, amounting to \$40,-542,288, to the bonus itself, and we find that these traffickers in a nation's perils have received in this operation \$153,159,-765 of the people's money, for which not the slightest equivalent was ever paid into the United States treasury.

In addition to the foregoing 6 per cent. bonds the Government at different times during the years mentioned issued and sold \$195,139,550 of bonds bearing 5 per cents They realized to the government \$122,957,-410, thus leaving the purchasers a net profit of \$72,182,149. Interest already paid on this profit amounts to \$26,115,624, which added to the profit itself, makes the sum of \$98,-297,864 as the amount now in the pockets of the bondholders growing out of their operations in the 5 per cent bonds, and for which there is not the slightest consideration.

may therefore be stated in the following tabular form: 1863 94,555,713 306,551,582 110,159,357 58,757,183 1867 167,915,741

profit arising from no investments at all

On account of 5 per cent bonds 98,297,864 Total \$1,012,536,004 This statement, Mr. Beck asserts, was each of bacon and pork. Three cases of carefully and truthfully prepared. It needs

THE Jewish Advance of Chicago continues to warn its readers that the Jews will entirely disappear as a distinct race if the fasouth to aid the fever stricken cities. Evans, tal and increasing fendency to intermarriage with Christians is not checked. A daughter of the late Isaac Friedlander of San Francisco, the colossal grain speculator, married a Christain with her father's consent, and two children of a prominent and orthodox Jewish minister of Berlin have recently married out of their ancestral faith. In the posthumous writings of Dr. Geiger, the famous rabbi of Bodin, is published a letter from Mr. Bischoffsheim, a distinguished Jewish scholar of Paris, written in 1872, in which he says: "The majority of the Parisian Israelites have cast aside ceremonial and ritualistic observances to such an extent that they continue Jews only in name. Many of the best and wealthiest families attend no synagogue. and, what is worse, marry their daughters to Christains. If the wives do not themselves embrace Christianity, the children, at least, are certain to be raised in that faith. The ultimate result of all this can only be the gradual transfer of the Jewish people to the prevailing religion."

> A HEALTHY BODY AND A CLEAR HEAD,-If indigestion constipation and biliousness torment the body, the head cannot be clear. These diseases react upon the brain most hurtfully, and produce a cloudiness in the organ of thought not experienced by a healthy man. Happily these brain-oppressing maladies may be entirely dispelled by that peerless alterative, Hostetter's Stomach Bitters, which cheers, refreshes and invigorates the brain and nerves, while it regulates the organs of digestion, assimilation and bilious secretion. It expels the morbid humors which poison the system through the bowels and urinary passages, and exerts a powerfully invigorating influence as well. Its cathartic action is never irritating, violent or painful, but even, natural and progressive. As an appetizer and sleep promoter the Bitters is unrivalled; it mitigates the infirmities of age, relieves the ailments peculiar to the gentler sex, arrests permature decay, and builds up an enfeebled physique.
